ECHA proposes to include 15 SVHC substances

in REACH Authorisation List

Date: 2015-07-06

Helsinki, 2 July 2015- ECHA proposes European commission to include 15 SVHC substances in REACH Authorisation List.

The 15 substances (in the sixth recommendation) for REACH authorisation process are as below:

#	Substance name	CAS NO.	EU NO.	Examples of uses in the scope of
	(and SVHC property)			authorisation (examples)
1	1-bromopropane (n-propyl bromide) (toxic for reproduction)	106-94-5	203-445-0	Solvent for vapour degreasing and sur-face cleaning
2	Diisopentylphthalate (toxic for reproduction)	605-50-5	210-088-4	Plasticiser
3	1,2-Benzenedicarboxylic acid, di-C6-8-branched alkyl esters, C7-rich (toxic for reproduction)	71888-89-6	276-158-1	Plasticiser
4	1,2-Benzenedicarboxylic acid, di-C7-11-branched and linear alkyl esters (toxic for reproduction)	68515-42-4	271-084-6	Plasticiser
5	1,2-Benzenedicarboxylic acid, dipen-tylester, branched and linear (toxic for reproduction)	84777-06-0	284-032-2	Plasticiser
6	Bis(2-methoxyethyl) phthalate (toxic for reproduction)	117-82-8	204-212-6	Plasticiser
7	Dipentyl phthalate (DPP) (toxic for reproduction)	131-18-0	205-017-9	Plasticiser
8	N-pentyl-isopentylphthalate (toxic for reproduction)	776297-69-9	-	Plasticiser
9	Anthracene oil (carcinogenic2, PBT, vPvB)	90640-80-5	292-602-7	Use in coatings, paints, waterproofing materials, sealants.
10	Pitch, coal tar, high temp. (carcinogenic, PBT, vPvB)	65996-93-2	266-028-2	Anti-corrosion agent in coatings, paints, adhesives and sealants. Binding agent for clay pigeons.
11	4-Nonylphenol, branched and linear, ethoxylated3 (equivalent level of concern due to en-docrine disrupting properties)	-	-	Floating agent in mining. Use in paints and in emulsion polymerisation.
12	Boric acid (toxic for reproduction)	10043-35-3 11113-50-1	233-139-2 234-343-4	Cellulose insulation, metallurgy, adhe-sives, construction materials, coatings, detergents, refractories, fertilisers.
13	Disodium tetraborate, anhydrous (toxic for reproduction)	1330-43-4 1303-96-4 12179-04-3	215-540-4	Cellulose insulation, metallurgy, adhe-sives, construction materials, coatings, detergents, refractories.
14	Diboron trioxide (toxic for reproduction)	1303-86-2	215-125-8	Cellulose insulation, metallurgy, adhe-sives, construction materials,

ECHA proposes to include 15 SVHC substances

in REACH Authorisation List

Date: 2015-07-06

				coatings, detergents, refractories.
15	Tetraboron disodium heptaoxide, hy-drate (toxic	12267-73-1	235-541-3	Cellulose insulation, metallurgy,
	for reproduction)			adhe-sives, construction materia

The 15 SVHCs will be included in REACH Authorisation List (Annex XIV) once ratified by EU commission, after which enterprises shall apply to ECHA for authorisation to use these substances.

C&K Testing reminds enterprises that substances in REACH Authorisation List will be gradually phased out by EU market and only few available in EU market after application for an authorised purpose. So it is of vital importance for relevant producers to take prompt measures to regulation compliance.

About us

C&K Testing laboratory has built a management system according to ISO/IEC 17025 and has been keeping an effective operation.

Our service can meet the inspection requirements of different markets and regions worldwide, covering various industries such as electronics & appliances, toys, textiles, automobiles, furniture, cosmetics, food contact materials, environmental monitoring and chemicals etc.
